

**Leslie O'Connor**  
*MHA Petroleum Consultants*

Since starting with MHA Petroleum Consultants LLC in 2006, Leslie O'Connor has moved from Vice President to Managing Partner of the company. With more than 35 years of petroleum experience, Leslie has experience with reserves valuations and economic analyses, reservoir engineering, conventional and unconventional reservoirs and also provides expert witness testimony when needed.

In her current role, Leslie provides evaluations, litigation support, reservoir studies as well as acquisition and divestiture support. She manages the Denver office of approximately 30 people with active engineering projects worldwide. Leslie is also in charge of staff recruitment, development of new business and new business contacts, as well as maintaining relationships with the company's existing client base.

Leslie received her extended BSc Geology with Applied Engineering from North Arizona University and completed her Graduate Studies in Petroleum Engineering at the Colorado School of Mines in Golden, CO.

*DPC Director: 2017-present*
